

# Urgent Care Centre

## Urgent Care Service Providers

The following is a list of alternative providers of urgent care. They can be accessed directly by you, without involvement from the practice. When the demand for urgent appointments is very high, the practice's capacity to provide them may be exceeded. In this situation, you will be directed to use one of the alternative providers below.

### Urgent Treatment Centres

These 'walk-in' centres are run by experienced clinicians usually including GPs. Some have access to investigations such as blood tests, ECGs and X-rays.

They can diagnose and deal with many of the urgent problems that present to both general practice and A&E such as:

- stomach pain
- coughs, colds and breathing problems
- vomiting and diarrhoea
- skin infections and rashes
- high temperature in children and adults
- mental health problems
- broken bones and sprains
- injuries, cuts and bruises
- wound dressings
- emergency contraception

# Urgent Care Alternative Providers

## Minor Ailments Scheme

Many minor ailments can be treated by pharmacists with medications provided without charge to those who are eligible to free prescriptions. Scan the link to find out more information.

Walk in to any pharmacy and ask to be seen under the Minor Ailments Scheme.

## Urgent Eye Care Service

You should contact your chosen optical practice to ask for an urgent eyecare service appointment.

More urgent cases will be seen within 24hrs. You will be contacted by an urgent eyecare service optometrist to discuss your symptoms further.

Scan the link to find available providers.

The nearest participating optician is:

**Smith & Walker**

**16 Hight Street, Barton-upon-Humber. DN18 5PD**

**Tel: 01652 632315**

## Mental Health Access Team

### Crisis resolution and home treatment

The North Lincolnshire Crisis Resolution and Home Treatment team conducts mental health assessments for individuals facing mental health crisis: **This service is 24/7**

**Telephone: 0800 804 8999**

For mental health emergencies, call 999 or go to A&E now if:

- Someone's life is at risk—for example, they have seriously injured themselves or taken an overdose
- You do not feel you can keep yourself or someone else safe
